01.00: Purpose of This Guide

This guide aims to clarify the requirements and procedures of the services provided by the Ministry of Investment to enhance efficiency and ensure high-quality service execution for clients. It also serves as a reference for all Ministry employees, clients, and relevant entities, promoting transparency, clarity, and standardization of service procedures.

02.00: Introduction to Investment Registration in the Kingdom

The procedures for registering new investments in the Kingdom and making amendments are based on solid foundations and objective criteria. These procedures aim to attract and empower serious investments that positively contribute to national economic growth and sustainable development, including:

Development of Saudi human resources

Technology transfer and localization

Enhancing economic competitiveness in local and global markets

Diversification of income sources

Balanced regional development.

Export growth

The Ministry of Investment welcomes investors who possess distinguished local or international expertise, financial capability, and organizational structure to activate their investments in the Kingdom.

The Ministry also works on improving the investment environment by offering various opportunities, attracting high-value investments, and providing advanced e-services that ensure speed and flexibility in transactions between investors and the Ministry. Additionally, it coordinates with relevant government agencies and offers post-registration services through Investor Relations Centers.

Furthermore, the Ministry seeks to facilitate the entry of entities with added value, as well as holders of special residency permits, to explore the Saudi market and establish companies under the corporate laws.
